slip B

Subject Letter no 275 dated the 3d Oct ober 1902 from the Dy: Commissioner of the Mysore District soliciting sanction to the construction of a 3d class Dharmasatra Khana at Malavalli.

Note

The President of the D. T. Board Yelandur Rocks Circle submits plan & estimate for Rs 2993 for the construction of a 3d class Dharmasatra Khana at Malavalli. The plan has been drawn up in accordance with the standard plan prescribed by Govt. (Vide serial nos 9 and 10). Provision for the work exists in the current year's D. T. Budget. The Board are agreeable to the charge

Submitted for orders with a view to sanctioning the estimate. A Share of the D. T. Budget is submitted B I separate for provision.

One form may be used for more than one letter of the same file as long as there is space. The Office Note should be in black ink. Write only on side of this form

× slip A

All these slips to be marked with proceedings slips.

Attended to 24/10

In this type plan the vegetarians & other Castes' Quarters open into a common Courtyard. It would be more convenient if this is altered so that the entrance of the other Castes may be towards the street.

The estimate may be sanctioned & the observation added if approved.

H 11/11

I have no particulars of the Dewan's interview with the Councillor

This is a standard plan, & no inconvenience has been felt.

The estimate may be sanctioned.

24-11-02

The President has again addressed the Govt through the Dy: Commissioner soliciting early sanction to the construction of the Nuwaraeliya as it would be difficult to complete the work ~~within~~ before the close of this year unless it is put in hand soon (vide Dy: Comrs no 576 of 17.1.03) *plan

The Chief Enquirer's reply to this office docket no 9395 of 5th Dec 02 *plan C (L 110-95) calling for his opinion as to whether it would not be convenient to modify the standard plan for the 2nd class Nuwaraeliya so as to ~~make~~ have the entrance of the "other Castes" quarters towards the street, has not yet been received. A reminder will be sent to him to-day. May this matter be connected

orj 22/1/03

The Chief Enquirer's reply has since been received (vide letter no 345 of 27th inst) He says that the entrance can be placed towards the street, if thought desirable, that personally he has no opinion to offer on the subject one way or the other, and that it is more a question for Native Caste gentlemen to decide upon

orj 31/1/03 Submitted for orders to Secy Ill 5/2/03

21. III. 03

Submitted to 2nd Councillor

24/3/03

In my humble opinion, no
wall is necessary - The Blocks are
sufficiently far apart - and
a wall would spoil the appearance
of the building - I am agreeable
to such orders as the Dewan may
be pleased to pass - The type plan
is a good one and seems to have
been decided upon after careful
consideration - It would be a
pity to alter it - C Greenaway

Sir,

I have the honor to state that the estimate for constructing cattle-trough-khana at Ellakalli submitted with this office Letter No. 87 dated 11th September 1902, has not yet been returned sanctioned. This is an important work and unless it is put in hand early, the work cannot be completed before the end of the year.

I am, therefore,

Sir,

that you will be so good as to obtain early sanction of Government to the estimate.

Encl to No. 54 a

Copy of docket No. 337 dated 30th January '03 from the Superintending Engineer, Western Circle, to the Chief Engineer of Mysore.

Chief Engineer's No. 7423 dated the 22nd December 1902, herewith returned, forwarding for opinion General Secretary's No. 9395 of the 5th idem, on the subject of opening an entrance for other castes in the Musafarkhana proposed to be constructed at Malvalli, French Rocks Division.

Has the honour to forward the enclosed copy of the docket No. 5 dated the 12th instant, from the Executive Engineer, French Rocks Division, on the points raised, and to inform the Chief Engineer that, in the undersigned's opinion, the entrance of the castes may be made to open towards the street as proposed.

Copy of docket No. 5 dated 12th January '03 from the Executive Engineer, French Rocks Division, to the Superintending Engineer Western Circle.

Superintending Engineer's —

are consulted together, this main feature of the type designs will become apparent.

3. When the type plans were being discussed in 96, one of the objections against a proposal similar to the one now raised by the General Secretary, was that the people who frequent the Musafirkhanas would put up with a little inconvenience, if only they could occupy them with the sense of security which a set of rooms arranged around a common yard ensures to most, however, the requirements of travellers who might find the common yard inconvenient, doors were introduced in the outer walls of the centre rooms in each set

4. Spare copies of type plans not being available, they are not forwarded herewith to illustrate this report
